TIME PERIODS FOR FILING A REPLY TO THIS NOTICE:

1. Applicant is given **no new time period** if the non-compliant amendment is an after-final amendment or an amendment filed after allowance. If applicant wishes to resubmit the non-compliant after-final amendment with corrections, the **entire corrected amendment** must be resubmitted.
2. Applicant is given **one month**, or thirty (30) days, whichever is longer, from the mail date of this notice to supply the correction, if the non-compliant amendment is one of the following: a preliminary amendment, a non-final amendment (including a submission for a request for continued examination (RCE) under 37 CFR 1.114), a supplemental amendment filed within a suspension period under 37 CFR 1.103(a) or (c), and an amendment filed in response to a Quayle action. If any of above boxes 1. to 4. are checked, the correction required is only the **corrected section** of the non-compliant amendment in compliance with 37 CFR 1.121.

Extensions of time are available under 37 CFR 1.136(a) only if the non-compliant amendment is a non-final amendment or an amendment filed in response to a Quayle action.

Failure to timely respond to this notice will result in:

Abandonment of the application if the non-compliant amendment is a non-final amendment or an amendment filed in response to a Quayle action; or

Non-entry of the amendment if the non-compliant amendment is a preliminary amendment or supplemental amendment.

The applicant's amendment to the claims submitted 1/9/06 is a non-compliant amendment under 37 CFR 1.121 for the reasons stated below:

- 1) The listing of claims does not include the text of all pending claims including the withdrawn claims. Applicants list claims 1,9,10, and 13-15 as withdrawn but do not include the full text of these claims. It is improper to merely label the claim as (Withdrawn) without providing the full text of each withdrawn claim.
- 2) Claims 16-18 are still listed as (New) claims when in fact they are no longer new. They were listed as "new" in the 4/7/05 amendment of claims but now are no longer new claims. These should be listed as (Currently amended) and not (New).
- 3) The amendments to the claims are improper. In claim 2, for example, it still lists the crossed out portion "concrete article" and the added underlined term process (From 4/7/05 amendment) yet the new amendment of 1/9/06 should not contain the deleted terms "concrete article" any longer nor should the term process be underlined.

It appears that this situation occurs in all pending claims. Applicants must understand that if a term or terms were crossed out and thus deleted that they should not appear again in the next amendment. The same goes for previously amended and underlined terms. These terms should not be underlined in subsequent amendments. It is also confusing because the new 1/9/06 amendment contains cross-outs or deleted terms and newly underlined or added terms so it is difficult to determine if the changes were from the 4/7/05 amendment or 1/9/06 amendment.

Art Unit: 1755

4) The amendment is also improper in that the applicants are now changing their invention from "A process for producing a concrete **article**" to "A process of producing a concrete **mixture**" which is a different invention from the originally elected invention. Applicants are reminded to delete the term "mixture" and amend back to article. Should applicants not do so, it will be treated as non-responsive as this is a non-elected invention. Thus, they are respectfully requested to amend it back to its original form. The applicants are thus respectfully requested to comply with the comments above for their next response to be fully responsive.
